Subject: Microsoft Settlement

Dear Mr. Ashcroft,

It has come to my attention that the Federal Gov. is still pursuing the Microsoft case.

As a consumer, I have no particular interest in the Microsoft Company, but I do use their products. I have been around long enough to watch what happened to the telephone company and disaster that continue to spawn out of that mess that us consumers have to pay for in time, money, and inconvenience.

The government has an agreement with Microsoft, why do you need to continue to look for ways to interfere with their quality products and service to us consumers?

In other words, please stop your hounding of this company and divert your efforts and money to more important dangers such as the safety of our country.

Thank you,

Elizabeth Morris
